

Project Activities

What is the project about?

The project DICAMP contributes to the modernization of study programmes curricula in Tunisian universities, by introducing a new master programme in innovation management. The project focuses on the conceptual development of a master programme as well as its implementation by European and Tunisian institutions. After elaborating the programme according to specific guidelines of an internationally reputable accreditation institute, the Tunisian ministry of higher education will approve the programme to implement it at Tunisian universities. European and Tunisian lecturers will do the courses and supervise Tunisian students in their project studies and master theses. The quality of the master programme is fostered by two further activities; the development and implementation of a laboratory of innovation management in Tunisia and the certification of the master programme through an international accreditation institute.

Project Partners

Who participates in the project?

- University of Leipzig
- Leipzig Graduate School of Management, Leipzig
- Fraunhofer Center for Central and Eastern Europe, Leipzig
- Weihenstephan-Triesdorf University of Applied Sciences, Freising
- The University of Exeter, Exeter
- Mines ParisTech, Paris
- École Nationale d'Ingénieurs de Tunis, Tunis
- École Sup. des Sciences Economiques et Commerciales de Tunis, Montfleury Tunis
- Institut des Hautes Etudes Commerciales Carthage, Carthage
- Ministry of Educ.- Ag. Nat. de Promotion de la Recherche Sci., Tunis
- Centre Intern. des Technologies de l'environnement de Tunis, Tunis

Project Objectives

What does the project aim?

- To develop a cross-university master programme in innovation management that is adapted to the cultural and economic requirements of Tunisia
- To implement the new master programme, while building the required capacities that enable the Tunisian universities to continue the programme beyond the project lifetime
- To apply to an international and reputable accreditation institute for the certification of the master programme

Master Programme

Project Kick-off meeting in Leipzig

On December 19-20 2011 the first project meeting (Kick-off meeting) took place in Leipzig at the Fraunhofer Center for Central and Eastern Europe (MOEZ). The meeting mainly focused on the interesting but also challenging work that has to be done during the three-year project time. Therefore the partners determined the next steps for the project which are: to design the master programme based on the above mentioned project objectives and to acquire qualified Tunisian students. In order to achieve these ambitious aims gradually the next meeting is scheduled for February 20 – 21 2012 in Tunis at École Nationale d'Ingénieurs de Tunis (ENIT) to start developing the master programme.
