

Project Events

On 25th April 2012 Tempus Project Officer Eva Valle Casanova visited DICAMP with the Field Monitoring Assessment. The meeting took place at École Nationale d'Ingénieurs de Tunis (ENIT), Tunis, Tunisia. The DICAMP partners presented the results of the first half of the year to the Project Officer who regarded the progress achieved so far as satisfactory. In this letter, in particular, we present one of the project milestones – its website.

Field monitoring visit at ENIT

Project Partners

HHL - Leipzig Graduate School of Management
CLIC - Center for Leading Innovation & Cooperation

HHL, founded in 1889, is the oldest business school in Germany and is today considered one of the leading business schools. The excellence of its programs (MSc, MBA, EMBA) has been proven by several rankings. As a state-recognized university with the right to award doctorates and post-doctoral lecture qualifications, HHL aims for the highest quality. The participating department is the Center of Leading Innovation and Cooperation (CLIC) with a long tradition in innovation management teaching and research. This research has been so far supported by many sources of third-party funds such as the federal ministry of education and research in Germany, research foundations, and local industry.

Project Progress

One of the major responsibilities of HHL/ CLIC within the DICAMP project is to create and manage the projects' website. The graphic designer Andy Gädt drafted various ideas for the design of the website. HHL decided to concentrate on a clean and well-arranged style to present the idea and objectives of the project DICAMP. One of a main intention of the website is of course to promote the master programme. The technical solution for the maintenance of the websites' contents is provided by WordPress. After discussing the structure of the website topics were defined and texts needed to be written. Thomas Kandler, research assistant at CLIC created a template and technically implemented the design, texts and pictures into WordPress. On April 23rd the website www.dicamp.eu was launched. Besides the visible structure for every user there is a login area for all project partners where workshop agendas, participants lists, etc. can be up- and downloaded. Furthermore the project can also be followed on facebook <http://www.facebook.com/pages/Dicamp/219786528130575>.

Project Activities

On 3-4th May 2012 the 2nd project workshop of DICAMP regarding the design of the master programme will take place at École Sup. des Sciences Economiques et Commerciales de Tunis (ESSEC), Tunis, Tunisia. As major objectives of the meeting all partners aim to discuss the curriculum and allocation of teaching capabilities.
